

MINELAB - WE CHANGE PEOPLE'S FORTUNES

X-TERRA 505

- Great mid-range detector for the whole family!
- Great depth & accurate discrimination
- 3 preset search patterns and All Metal
- Manual ground balance capability
- 3 frequencies 3, 7.5 and 18.75 kHz VFLEX technology

X-TERRA 705

- All-purpose detecting for gold nuggets, coins, jewellery or relics
- Automatic ground balance for gold prospecting
- Variable notch discrimination to eliminate trash
- The most powerful in its class!
- VFLEX technology offers detecting in 3, 7.5 or 18.75khz

X-TERRA 705 Gold Pack

- Multiple-purpose & versatile 2 detectors in 1
- Prospecting Mode - the perfect settings for your next gold fields adventure
- Discriminated unwanted targets.
- Accurate Ground Balance options to 'see through the ground'
- Change coil to change frequency

X-TERRA 705 Dual Pack

- Twice the adventure! Now get the best of both worlds by using the 7.5 kHz coil for treasure detecting and quickly switch to the 18.75 kHz coil for finding gold nuggets.
- Multi-purpose & versatile detector.

ABOUT METAL DETECTING

Metal detecting is a fun, fascinating and potentially lucrative hobby. It's wonderful to get outdoors, make new friends, get some exercise and possibly even find buried treasure! Millions of people are enjoying this great experience every day. Today's sophisticated metal detecting equipment, using advanced technologies, allows the user to accurately pinpoint what is in the ground, how deep it is buried and even what kind of material it is made from.

Hobbyists can actually program their equipment to look for specific items; gold, rare coins, jewellery, meteorites, etc. These days, digging up just one of these items can literally recover the purchase price of the detector! What other hobby can actually pay you back? The small investment in a quality Minelab metal detector is well worth the potential rewards.

We Change People's Fortunes

... START THE EXCITEMENT OF DISCOVERY WITH

GO-FIND 20

- Collapsible
- Lightweight
- Easy to use [2 modes]
- Waterproof coil
- VFLEX technology

GO-FIND 40

- Collapsible & Lightweight
- Easy to use [3 modes]
- Large waterproof coil
- Treasure View LEDs
- Pinpointing
- VFLEX technology
- Smartphone Free App

1. Identify common coins
2. View detector information
3. Play music and more...
4. Upgrade available to PRO APP

GO-FIND 50

- Collapsible & Lightweight
- Easy to use [4 modes]
- Large waterproof coil
- Treasure View LEDs
- Pinpointing
- Digging tool, smartphone holder and ear buds included
- VFLEX technology
- Smartphone Pro App

1. Identify common coins
2. Remote control your detector
3. Record finds on Google Maps
4. Customise target tones in App
5. Play music and more...

COIN & TREASURE

Safari III

- Sheer simplicity for everyone with the minimum of fuss, you can start finding treasure in seconds!!
- 4 preset modes to suit different applications: Coins, Coin & Jewellery, Relic, All-Metal
- Find more valuable treasure, dig less junk!
- Visual target identification
- Lightweight, waterproof 11-inch Double-D coil

E-TRAC

FBS# Smartfind

- Switch on and go detecting
- Exclusive Smartfind 2D Discrimination (35 x 50 = 1,750 segment target resolution)
- Lightweight, waterproof 11-inch Double-D coil
- PC interface via Xchange - download & upload search modes & discrimination patterns
- FBS technology

PINPOINTER

VLF# DIF

- Proportional audio/vibration response
- Narrow down the exact location of targets
- Two mode operation
- Durable water resistant construction
- Probe side detection area (360°) allows targets to easily be located in the walls of the hole.

COIN & TREASURE (UNDERWATER)

EXCALIBUR II

BBS# RCB#

- Robust design - go detecting anywhere!
- Fully waterproof 200 ft (60m)
- 2 shaft configurations long for land and short for underwater
- The superior depth and accuracy continue to amaze long time divers and everyday beachcombers
- Multi-frequency BBS technology for great results in any beach or underwater environment

CTX 3030

- Waterproof 10 ft (3m) - take it anywhere!
- More treasure, less junk with the ultimate FeCo discrimination
- Wireless audio allows you to detect without headphones.
- GPS mapping through Xchange 2 to log your finds.
- Latest Minelab technology- FBS 2, GPSi & Wi-Stream

FBS 2 Smartfind 2 GPSi WiStream

DETECTING HARNESS

PRO-SWING 45

- Designed for ultimate convenience and functionality. Minelab's innovative W8 distribution system and specialist features allow you to spend more time in the field, detecting with ease.
- 8+8 Versatility
- Quick Release R-clip
- Left & Right Capability
- Padded Back Cushion
- Suits Any Detector
- Simple Bungy Adjustment

GOLD PROSPECTING

**وكتش الذهب 1000
GOLD MONSTER 1000**

- Fully Automatic Gold Detector
- High gold sensitivity
- Waterproof coil (to 1m/3') | Rain proof control box
- 2 search coils included
- Wide ground coverage

VLF#

GPX-4500

- Easy to get started
- 6 Timings in 1 advanced detector: Enhance, Normal, Sensitive Smooth, Salt Course, Sensitive Extra & Sharp.
- Automatic Ground Balance Tracking options
- Two coils (11" Double-D + 11" Monoloop coil)
- MPS, DVT and SETA technologies

MPS# DVT# SETA#

GPX 5000

- Eight (8) Timings (8 detectors in 1)
- The greatest depth advantage to find gold (Find all gold in all ground conditions)
- Turn on and go (with Automatic functions and preset Search Modes)
- Two coils (11" Double-D coil + 15"x12" Monoloop coil)
- World's most advanced Pulse Induction Technology

MPS# DVT# SETA#

GOLD PROSPECTING (UNDERWATER)

SDC 2300

MPF

- Compact - Fits into backpacks.
- Fully submersible to 10 ft (3m) for detecting riverbeds and shorelines
- Rugged and no assembly required.
- Search quickly and efficiently in hard to reach and remote places to find those elusive gold bearing clustered deposits.
- MPF technology

GOLD PROSPECTING

GPZ 7000

ZVT Super-D GPSi WiStream

- Extreme gold depth (up to 40%* deeper than the GPX series), for the ultimate gold prospecting performance in all ground conditions.
- Maximum gold sensitivity
- Precision Ground Balance
- Enhanced noise cancel
- Simple menu system
- Wireless audio
- GPS locating & PC mapping

*When compared to the average performance of the GPX 5000 in typical environments. Actual performance depends on prevailing conditions.

PRO-GOLD

- Everything you need to get started!
- Multiple panning zones for maximum gold recovery
- High contrast blue for optimum gold visibility
- Compact nested design
- Ergonomic & practical
